TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Fremont in the County of Rockingham in said State, qualified to vote in Town Affairs:

[L. S.]

You are hereby notified to meet at the Fremont Town Hall in said Fremont on Tuesday, the fourteenth day of March next, at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriation of the same.
3. To see if the town will vote to confirm the action of the Selectmen in regard to the purchase and fitting up of the "Lincoln" fire truck and raise and appropriate a sum of money to reimburse the town's treasury for the sum so expended.
4. To see what action the town will take in regard to Construction and Maintenance of the so-called State Aid and Trunk Line Highways within the town and raise and appropriate any monies deemed necessary for same.
5. To see if the town will vote to adopt the Australian ballot system as to election of its town officers; to go into effect March, 1934.

6. If article five is adopted: To see if the town will vote to have all candidates file their names with the Town Clerk, at least ten days previous to the annual town meeting, and a charge of \$1.00 made to cover cost of printing ballots.

7. To raise and appropriate such sums of money as may be deemed necessary for the following purposes: for the support of town poor, for street lighting, for the care of cemeteries, for repairs to highways and bridges, for the Public Library and for Memorial Day.

8. To see if the town will vote to authorize the selectmen to hire money in anticipation of taxes.

9. To see if the town will vote to raise and appropriate a sum of money toward erecting a building for housing the fire apparatus of the town.

10. To see if the town will vote to discontinue certain sections of the Beede Hill Road which are no longer needed as highways.

11. To transact any other business that may legally come before this meeting.

Given under our hands and seal, this twenty-seventh day of February, in the year of our Lord nineteen hundred and thirty three.

STEPHEN A. FROST,
 LYMAN S. HOOKE,
 GEORGE A. BASSETT,
Selectmen of Fremont.

A true copy of Warrant—Attest:

STEPHEN A. FROST,
 LYMAN S. HOOKE,
 GEORGE A. BASSETT,
Selectmen of Fremont.

SCHOOL WARRANT

STATE OF NEW HAMPSHIRE

To the inhabitants of the School District of Fremont, qualified to vote in district affairs:

You are hereby notified to meet at Town Hall in said district on March 14, 1933, at 9:00 o'clock in the morning to act upon the following subjects:

- 1—To choose a moderator for the ensuing year.
- 2—To choose a clerk for the ensuing year.
- 3—To choose a treasurer for the ensuing year.
- 4—To choose a member of the school board for the ensuing three years.
- 5—To fill any other vacancies on the school board.
- 6—To hear reports of agents, auditors, committees, or other officers chosen, and pass any vote relating thereto.
- 7—To see what alterations, if any, the district will vote in the school board report of money needed for educational purposes during the ensuing fiscal year, and see if the district will vote to raise the amounts as then called for therein.
- 8—To choose agents, auditors, and committees in relation to any subject embraced in the warrant.

Given under our hands, this 26th day of January, 1933.

EFFIE L. HOOKE,
BERTHA H. STEVENSON,
NORMAN S. McINTOSH,
School Board of Fremont.

A true copy—Attest:

EFFIE L. HOOKE,
BERTHA H. STEVENSON,
NORMAN S. McINTOSH,
School Board of Fremont.

\$9,238.01

Less school board orders paid 7,833.33

Balance on hand June 30, 1932 \$1,404.68

GEORGE E. BEEDE,

School Treasurer.

July 1, 1932.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Fremont :

It is my privilege, as Superintendent of Schools, to again present my report, the sixth annual. In this report I invite your consideration to the following topics: The Pupils' Progress, Economic Conditions and the Schools, Our needs and the Future.

THE PUPILS' PROGRESS

In line with my last report I wish to continue the tabulation of test scores. The eighth grade was tested separately with the "Standard Graduation Examination" and grades four to seven inclusive used the "Otis Classification Tests." The results are grouped below.

<i>8th Grade</i>		
<i>Highest Score</i>	<i>Median Score</i>	<i>Median of Union</i>
		<i>No. 14</i>
203	130	130
<i>No. of Pupils</i>	<i>No. above Union Median</i>	
5	1	

<i>Grades 4 to 7</i>			
<i>Grade</i>	<i>No. of Pupils</i>	<i>Median Score</i>	<i>No. above</i>
		<i>Un. No. 14</i>	<i>Un. Med.</i>
4	12	49	6
5	12	73	3
6	8	93	3
7	13	108	6

Again the results are not satisfactory. The fourth and seventh grades have about equalled our expectations and the sixth did rather well. The other grades did not reach the standard level. Again we must insist upon higher standards of scholarship so that your pupils will approach or surpass those of other districts.

ECONOMIC CONDITIONS AND THE SCHOOLS

Walter Gifford, Chairman of the Unemployment Committee, says "One body of our citizenry remains immune from all blame and responsibility in the difficulties with which we are faced and must be held in special guardianship during the period of readjustment. I refer to the Children." Who can deny the truth of this statement? Yet we fear there are hostile agencies afloat who would imperil the greatest socializing agency in America, our public school system. Due to the great economic stress considerable pressure is being brought to bear upon public officials to reduce the burdens of government with schools asked to take a large share in it since they are a large factor in the make-up of the total. Some will advocate as high as reductions of fifty per cent. Such procedure would be disastrous not only to the schools and the children but to our American Civilization, to our political stability, and to our capacity to return to a reasonable level of prosperity. No one of good understanding would advocate a radical reduction in the money devoted to our public schools. America is not, never has been, never will be so poor that it must starve and cripple its most effective agency of strength and stability.

Education is the balance wheel of civilization. It preserved the best of the past and helps each generation to fashion them to the needs of the future. How much more important just now is this service? Have you not been amazed at the almost negligible amount of lawlessness and disorder during the past year and a half? Have you ever stopped to ask yourself how far the schools are responsible for this control? Schools also contribute to economic stability. Supporting the schools is supporting the grocer, the tailor, the manufacturer, the builder because the money spent flows directly into these channels of activity.

Proposed retrenchments threaten to reduce the pay of teaching to that of unskilled labor. If such retrenchments are adopted, expensive preparation for teaching must be

abandoned. The practice of false economy will require that the school curriculum be stripped to a point which will provide only the type of education needed for "horsecart days." Training for sound health, worthy home membership, lifelong learning, good citizenship, vocational skill, useful employment of leisure, and ethical character must be greatly reduced or eliminated. The abandonment of these educational objectives, called forth by the demands of an increasingly complex social and economic system, will be a greater national calamity than abandoning the automobile and reverting to the days of horse and buggy.

We hear much about school costs. Some say they have increased too rapidly since the war. Let us examine some of the reasons for the admitted increase. First, attendance in the United States has increased approximately 70% since 1914. Since we have not found a way to educate children by machinery, and increase in attendance involves a proportionate increase in school expenditure. Of course we could have prevented the growth in costs due to increased attendance, by allowing fewer children to attend school or by forcing them out of school at an earlier age. Most of us, however, would question whether such a policy would mean a real saving. Second, school costs have increased because the greater demands of the changing times have been exacted. Better trained teachers have been demanded. Better constructed and more healthful buildings have sprung up all over the land. The enrichment of the curriculum to meet the varying needs of individual pupils has become imperative. All of these items conforming to our own greater personal needs contribute to an added expense of operation and are reflected in the public opinion of every school district whether these items are of direct or indirect concern. Third, school costs increased between 1914 and 1926 due to the decreased purchasing power of the dollar. Figures are not available for recent years but various estimates place increased present day costs due to decreased purchasing power at 25% of the increase whereas in 1926 it was 50%. When these three

factors are evaluated, most of the increase in school costs is accounted for.

Today your community as well as every community is studying its schools and every other agency of government to discover what economies can be made to bring expenditures within the community's capacity to pay. Care should be exercised to avoid economies which are short-sighted. The quality of instruction your child receives will demand largely upon what you pay for it. Wise buyers know that there is really no such thing as a bargain. Parents owe it to their children to weigh carefully the many proposed methods of economizing in school expenditures. A false step here can cripple the fundamental services of the schools. In the years just ahead of us lie important problems. These problems cannot be solved by a blighted generation.

NEEDS AND THE FUTURE

With past successes alive in the present, we are led to believe that the future is not barren and dark. Many improvements in personnel, buildings, and equipment have taken place. More satisfactory teachers have been employed and retained. Lights have been added to every building. Better teaching equipment is being added from time to time. So we might ask—what is the next step? It would appear to the writer that your district is ideally located for further advancement in educational opportunity by more consolidation. I have considered the many angles of the question and have come to the conclusion that a material saving in money could be made by moving another building on to the present village lot and concentrating all the schools in the one place. To be sure this would be the method to eliminate north, east, south, or west and make every corner—Fremont. I would suggest that a committee be appointed to act in conjunction with the School Board to consider such possibilities. Sooner or later some better sanitary conditions will need to prevail at one or two schools. If adequate toilet facilities for all the children

are now available in one location the result of consolidation would effect a saving in this particular.

I am deeply appreciative of the support of the School Board, the assistance of a good force of teachers, and the cooperation of parents and friends. The year has passed admirably well for such troublesome times. The ever-lastin' teamwork of every blooming soul" has been our watchword.

Very respectfully,

HAROLD C. BOWLEY.

Epping, N. H.

February 10, 1933.

TABLE I—TEACHING STAFF, 1932-33

<i>Name</i>	<i>Trained at</i>	<i>Experience</i>
